D294.

THE
MESSENGER OF MATHEMATICS.

EDITED BY
J. W. L. GLAISHER, Sc.D., F.R.S.,
FELLOW OF TRINITY COLLEGE, CAMBRIDGE.

VOL. XXI.
[MAY 1891—APRIL 1892.]

MACMILLAN AND CO.
London and Cambridge.
1892.

CAMBRIDGE:
PRINTED BY METCALFE AND CO. LIMITED, TRINITY STREET.

CONTENTS.

ARITHMETIC AND ALGEBRA.

	PAGE
On arithmetical series. By Prof. SYLVESTER - - -	1, 87, 192
On the Jacobian of two quadratics. By W. BURNSIDE - - -	26
On a system of simultaneous equations. By W. BURNSIDE - - -	27
Note on the sum of functions of quantities which are in arithmetical progression. By H. W. RICHMOND - - -	29
Mersenne's numbers. By W. W. ROUSE BALL - - -	34, 121
Note on functions proper to represent a substitution of a prime number of letters. By Prof ROGERS - - -	44
Expression for the sum of the cubes of the divisors of a number in terms of partitions of inferior numbers. By J. W. L. GLAISHER - -	47
Recurring relations involving sums of powers of divisors. By J. W. L. GLAISHER - - -	49
The sum of the cubes of the coefficients in $(1-x)^{2n}$. By H. W. RICHMOND	77
Note on the simultaneous transformation of two quadratic functions By J. E. CAMPBELL * * * * *	78
Note on a recurring formula for $\sigma(n)$. By J. W. L. GLAISHER - -	122
Note on a hyperdeterminant identity. By Prof. CAYLEY - - -	131
On Waring's formula for the sum of the m th powers of the roots of an equation. By Prof. CAYLEY - - -	133
On some square roots of unity for a prime modulus. By H. W. LLOYD TANNER - - -	139
On the summation of certain series. By H. W. SEGAR - - -	145
On a determinantal theorem due to Jacobi. By H. W. SEGAR - -	148
On the multinomial determinant. By H. W. SEGAR - - -	177
Note on a remarkable series of numbers By H. W. SEGAR . - -	191

GEOMETRY.

	PAGE
On the form of closed curves of the third class. By W. BURNSIDE	- 25
On the nonexistence of a special group of points. By Prof. CAYLEY	- 132
Note on the maximum number of arbitrary points which can be double points on a curve, or surface, of any degree. By J. E. CAMPBELL	- 158
On the circle perpendicular pencil and orthocentral axis of a complete quadrilateral. By Lt.-Col. CUNNINGHAM	- 188

DIFFERENTIAL AND INTEGRAL CALCULUS.

Note on a formula in spherical harmonics. By R. FUJISAWA	- 40
--	------

THEORY OF ELLIPTIC FUNCTIONS.

Expressions for symmetrical functions of I, G, E in terms of q . By J. W. L. GLAISHER	- 65
Two notes on Weierstrass's $P(u)$. By W. BURNSIDE	- 84
On the application of Abel's theorem to elliptic integrals of the first kind. By W. BURNSIDE	- 164
On the linear transformation of the elliptic differential. By W. BURNSIDE	- 170

APPLIED MATHEMATICS.

A hypothesis relating to the nature of the ether and gravity. By W. W. ROUSE BALL	- 20
Note on the equilibrium of a closed surface under the action of normal forces. By Prof. ANDERSON	- 42
On centres of pressure. By Prof. ANDERSON	- 69
A property of the equation of conduction of heat. By J. BRILL	- 137
