

This Supplement is dedicated  
to Prof. Dr. Karl-Heinz Rechinger  
on the occasion of his 90th birthday  
and admirable completion of his  
magnificent "Flora Iranica"

## Preface

The Supplement to the "Chorology of Trees and Shrubs in South-West Asia and adjacent regions" has been prepared on the same principles as the previous ten volumes. It covers the range of further 25 species of trees and shrubs belonging to 19 genera and 15 families. The total number of species, which maps of distribution were published till now is 575. Species of *Phlomis* and *Teucrium* have been prepared by J. Zieliński of the Institute of Dendrology, Kórnik.

Most of species belongs to the following families: *Rosaceae* – 101 (*Rosa* – 25, *Amygdalus* – 17), *Leguminosae* – 55, *Salicaceae* – 28 (*Salix* – 23), *Caprifoliaceae* – 24 (*Lonicera* – 18), *Rhamnaceae* – 24 (*Rhamnus* 16), *Fagaceae* – 23 (*Quercus* – 21), *Ericaceae* – 21, *Labiatae* – 16, *Aceraceae* – 15 and *Ephedraceae* – 15.

Literature listing has been supplemented with additional 32 items. The numbering of these references is in continuation of the listing presented in previous ten volumes. The text have been translated into English mostly by

This supplement is dedicated to Prof. Dr. Andrzej Kozłowski on the occasion of his 70th birthday and a tribute to his scientific and personal achievements.

## Preface

The Supplement to the *Chronology of Fossils and Strata in South-West Asia and adjacent regions* has been prepared on the same principles as the first volume. It covers the range of fossils of the 23 species of birds and strata belonging to 19 families and 12 families. The total number of species, which were of importance, was published till now is 275. Species of Palaeozoic and Tertiary have been prepared by J. Kozłowski of the Institute of Geology, Polish Academy of Sciences, Warszawa.

Most of species belong to the following families: *Amniota* - 101 (Fossils - 25, Mammalia - 17), *Reptalia* - 22, *Actinoptera* - 28 (Fossils - 22), *Cyprinodontes* - 14 (Fossils - 12), *Rhynchonellata* - 24 (Fossils - 18), *Arthropoda* - 21 (Fossils - 21), *Trilobozoa* - 21 (Fossils - 21). Literature listing has been supplemented with additional 24 items. The number of these references is in continuation of the listing presented in previous volumes. The text has been translated into English mostly by
