INFORMATION FOR AUTHORS

The editors of *Geographia Polonica* invite theoretical and empirical contributions to human as well as physical geography, in broad terms. Articles are expected to be original and not yet published elsewhere unless in languages other than English.

MANUSCRIPTS. Manuscripts, in the English language, should be submitted to the Editor of *Geographia Polonica* (Institute of Geography and Spatial Organization, Polish Academy of Sciences, Twarda 51/55, 00-818 Warszawa, Poland).

As all manuscripts will be reviewed, therefore, authors are kindly requested to provide two hard copies of the complete text (main text, abstract, references, tables, illustrations) and one copy delivered in an electronic form in MS Word.

The manuscripts should be arranged in the following order. First sheet: title, full name of author(s), affiliation, full postal address, e-mail address. Second sheet: abstract of no more than 100 words, key words (3–10) at the end of the abstract. Subsequent sheets: the main text of about 20–25 pages (in A4 format). Then on separate sheets: acknowledgement (if desired), notes, references, tables, illustrations, captions to illustrations.

The main text may be organized in sections under appropriate headings without numerals.

SPACING. Manuscripts should be printed with 1,5 lines spacing without indents; for paragraphs enter a line-space.

REFERENCES should be printed in alphabetical sequence at the end of the text. Examples:

Articles from journals:

- Perroux, F. (1950), *Economic Space: Theory and Applications*, *Quarterly Journal of Economics*, 64: 89–104,
Kotarba, A. (1992), *Denudacja mechaniczna Tatr Wysokich pod wpływem opadów ulewnych [Mechanic Denuddation in the High Tatra Mountains Caused by Downpours]*, *Prace Geograficzne* 195, Instytut Geografii i Przestrzennego Zagospodarowania (IGiPZ), PAN: 191–208.

Books:

Theses:

- Elfring, T. (1987), *Service Employment in Advanced Economies*, Unpublished Ph.D. thesis, Rotterdam, Erasmus University, School of Management.

References should be indicated in the text by listing, in parenthesis, the author's name followed by the data of publication, e.g. (Kowalski 1995) or (Kowalski and Brown 1996) or (Kowalski et al. 1997) if there are more than two authors (Note: all the authors should be listed in the references).

FOOTNOTES and **NOTES** should be referred to by superscript letters.

ILLUSTRATIONS should be supplied in one of the following formats:

- photographs: JPG, TIFF, EPS or PSD,
- maps, figures and diagrams should be presented as vector files in AI (Adobe Illustrator) or one of the format mentioned above.

Please ensure that the resolution is not lower than 300 dpi and the lines are a minimum of 0.3 points thick. Please also supply printouts of illustrations that are to be presented, in black and white or in colours, in relation to the required final appearance in print.

TABLES should be printed on separate sheets and numbered sequentially with Arabic numerals (e.g. Table 1). Each table should be provided with a clear descriptive caption at the top and informative column headings.

EQUATIONS and **SYMBOLS** used in mathematical formulae must be clearly explained. Axes on graphs should be described clearly. Units and abbreviations used by authors should conform to the International List.

MEASUREMENTS should be given in metric units.

ACCEPTED MANUSCRIPTS. After acceptance for publication, authors will receive page proofs for approval before publication. The revised manuscript should be returned promptly to the Editor.

Articles accepted for publication in *Geographia Polonica* are not honoured financially. Authors of accepted articles will receive one copy of the journal free of charge.

Authors are responsible for indicating copyright as well as permission from the copyright holder to reproduce any texts, tables or illustrations for which copyright exists.
