Warsaw, Poland

VOLUME 1:

Names of first authors: A-K

The present two volumes contain the preliminary working material for the international IFAC//FORS//IIASA/TIMS workshop on SUPPORT SYSTEMS FOR DECISION AND NEGOTIATION PROCESSES, Warsaw, June 24-26, 1992. As such these volumes cannot be regarded as proper publication. The state of the material here presented is as of May 26th, 1992. Very little, if any, editing was performed on the papers and abstracts presented and they should be treated as draft material.

WARSAW, JUNE 1992

- Decision theory

SUPPORT SYSTEMS FOR DECISION AND NEGOTIATION PROCESSES

Organized by
Systems Research Institute, Polish Academy of Sciences

Sponsored by
The International Federation of Automatic Control (IFAC)

- Technical Committees:
- Economic and Management System
 - Systems Engineerings

The International Federation of Operational Research Societies (IFORS)

The International Institute for Applied Systems Analysis (IIASA)

The Institute of Management Sciences (TIMS)

- College on Group Decision and Negotiation

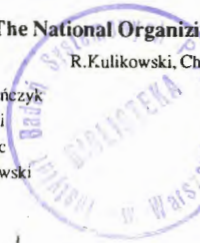

The International Programme Committee.

Table of Contents

According to Workshop Program

WEDNESDAY, JUNE 24, 1992

Plenary session

- Y.Y.HAIMES, *Center of Risk Management of Engineering Systems,
University of Virginia (USA)*
Risk of extreme events and the fallacy of the expected value 207

Technical sessions

Negotiation and mediation support systems

1. S.S.NAGEL, *Political Science, University of Illinois (USA)*
Super-optimum mediation in rule-making controversies 409
2. L.KRUŠ, *Systems Research Institute, Polish Academy of Sciences (PL)*
Computer based mediation support 303
3. D.B.G.MEISTER, N.M.FRASER, *Department of Management Sciences,
University of Waterloo (CDN)*
An architecture for a prescriptive negotiation support system 383
4. S.SZPAKOWICZ, Z.KOPERCZAK, G.E.KERSTEN, *Department of Computer Science,
University of Ottawa/School of Business, Carleton University, Ottawa (CDN)*
A Negotiation-Based Model of Co-Operative Decision-Making 557
5. P.KOKOL, B.STIGLIC, V.ZUMER, *The Faculty of Technical Sciences, Maribor (SLO)*
Constructing negotiation models applying SSM: a software development lookout .. 275
6. G.FLORESCU, M.MOISE, *Research Institute for Informatics, Bucharest (R)*
Fuzzy support system for negotiation 125
7. X.QU, Y.LU, *Institute of Systems Engineering, Dalian University of Technology (PRC)*
Bargaining system for allocation of resources 479

Preferences, opinions, and consensus

1. S.H.ZANAKIS, *College of Business Administration, Florida International University (USA)*
Expert opinion elicitation & aggregation: a DSS software & applications 631

2. J.W.OWSIŃSKI, <i>Systems Research Institute, Polish Academy of Sciences (PL)</i> Preferences, agreement, consensus - measuring, aggregation and control	441
3. M.FEDRIZZI, J.KACPRZYK, J.W.OWSIŃSKI, S.ZADROŻNY, <i>Institute of Computer Science, University of Trento/Systems Research Institute, Polish Academy of Sciences (I/PL)</i> A DSS for consensus reaching using fuzzy linguistic majority and clustering of preferences	117
4. L.KLUKOWSKI, <i>Systems Research Institute, Polish Academy of Sciences (PL)</i> Some probabilistic properties of the nearest adjoining order method for the case when comparisons are not independent	267
5. A.T.D.ALMEIDA, G.A.Bohoris, F.C.M. DE SOUZA, <i>The University of Birmingham/Companhia Hidro Elétrica do São Francisco/Universidade Federal de Pernambuco (UK/BR)</i> Preference elicitation in reliability	11

Applications of decision support systems

1. D.N.CLARK, L.R.FOULDS, <i>Department of Management Systems, University of Waikato/Department of Management Information Systems, University College, Dublin/Premier Tir Laighean Ltd, Dublin (NZ/IRL)</i> A decision support system for milk tanker scheduling	45
2. J.DAI, K.LU, H.WANG, <i>Institute of Systems Engineering, Huazhong University of Science and Technology (PRC)</i> An intelligent and distributed decision support system for rescue in coal mines	65
3. B.S.ELKIN, A.E.LILIK, S.R.TARANOV, <i>Faculty of Mathematics and Mechanics, Kharkov State University (UKR)</i> A system of informational backup for treatment of victims of technogenic and natural emergencies	111
4. S.D.BUSHUEV, <i>Kiev Civil Engineering Institute (UKR)</i> Decision making by innovation in project management	43
5. D.TOMIC, <i>VELMOS Informatika, Mostar (BH)</i> Application of DSS in inventory management	585
6. Q.WANG, Q.ZHUO, <i>Hebei Coal Mining and Civil Engineering College, Handan/Hefei Polytechnical University (PRC)</i> Mathematical model of generalized grey linear programming and its solution	609

Voting

1. G.GAMBARELLI, <i>Department of Mathematics, Statistics, Computer Sciences and Applications, University of Bergamo (I)</i> Power indices for political and financial decision making	147
2. H.NURMI, A.SALOMAA, <i>Department of Political Science/Department of Mathematics, University of Turku (SF)</i> Conducting secret ballot elections in computer networks: problems and solutions	423
3. J.KACPRZYK, M.FEDRIZZI, H.NURMI, <i>Systems Research Institute, Polish Academy of Sciences/Institute of Computer Science, University of Trento/Department of Political Science, University of Turku (PL/I/SF)</i> Fuzzy linguistic majorities in group decision making and consensus reaching	225

4. J.MERCIK, *Institute of Production Engineering and Management, Technical University of Wrocław (PL)*
 VOTE: computer evaluation of voting techniques and candidates' chances 389

THURSDAY, JUNE 25, 1992

Plenary session

- R.KULIKOWSKI, *Systems Research Institute, Polish Academy of Sciences (PL)*
 A theory of success with application to decision support 315

Technical sessions

Bargaining and negotiation analysis

1. A.BLAQUIÈRE, *Laboratoire d'Automatique Théorique, Université Paris (F)*
 Negotiation with threat strategies 23
2. P.K.PATTANAİK, J.STEFAŃSKI, *Graduate School of Management, University of California, Riverside/Systems Research Institute, Polish Academy of Sciences (IND/PL)*
 Flexible threats in bargaining 455
3. P.BRONISZ, L.KRUŚ, *Systems Research Institute, Polish Academy of Sciences (PL)*
 Experiments in calculation of game equilibria using nonsmooth optimization lack
4. W.KRAJEWSKI, *Systems Research Institute, Polish Academy of Sciences (PL)*
 Role of information structures in risk-sensitive discrete-time noncooperative problems 297
5. F.A.LOOTSMAN, J.SLIJS, S.Y.WANG, *Faculty of Technical Mathematics and Informatics, Delft University of Technology (NL)*
 Pairwise comparison in negotiation processes 357
6. S.LAHIRI, *Indian Institute of Management, Ahmedabad (IND)*
 Some concepts of distributive justice in bargaining problems 347
7. Y.QIU, J.WU, *Institute of Automation, Academia Sinica (PRC)*
 A time sequences nonlinear model and algorithms of social dilemma 473

Decision support systems in natural resources and ecology

1. R.C.COLLINS, *Institute of Environmental Negotiation, University of Virginia (USA)*
 Linking scientific & technical data with environmental negotiation: functions and case studies 63
2. D.DZEMYDIENE, *Institute of Mathematics and Informatics, Vilnius (LIT)*
 Representation of decision making processes for the ecological evaluation system 103

3. L.GUENNEGUEZ, <i>Institut Régional de Gestion et d'Administration des Entreprises, Université de Bordeaux (F)</i> Forest property: decision between objectives and meta-objectives	189
4. R.HILLENBRAND, D.HACKENBERG, <i>Institute for Industrial Production, University of Karlsruhe (D)</i> Expert system for evaluation and selection of emission control measures	209
5. R.HILLENBRAND, D.HACKENBERG, H.-D.HAASIS, O.RENTZ, <i>Institute for Industrial Production, University of Karlsruhe (D)</i> Design of an information and decision support system for emission control measures	215
6. E.M.THIESSEN, D.P.LOUCKS, <i>School of Civil and Environmental Engineering, Cornell University (USA)</i> Computer assisted negotiation of multiobjective water resources conflicts	579
7. P.GU, <i>Institute of Systems Engineering, Tianjin University (PRC)</i> The model of tactic-coordinating system - application of such a system in the pretreatment of wastewater	183
8. Z.LUCKI, A.KOZARKIEWICZ, <i>Academy of Mining and Metallurgy, Cracow (PL)</i> Decision-making tools in petroleum exploration	367

Negotiation and conflict resolution in practice

1. N.M.FRASER, <i>Department of Management Sciences, University of Waterloo (USA)</i> Decisionmaker: lessons from the marketplace	129
2. B.I.SPECTOR, <i>International Institute for Applied Systems Analysis (A)</i> Preference adjustment and opportunities for agreement: decision analysis applied to the UNCED prenegotiation process	535
3. F.SEO, I.NISHIZAKI, <i>Kyoto Institute of Economic Research, Kyoto University (J)</i> Conflict resolution with robustness in international negotiations: a game theoretic approach	5
4. D.M.KILGOUR, K.W.HIPEL, L.FANG, <i>Department of Systems Design (CDN)</i> The graph model for conflicts as a negotiation support tool	245
5. A.KUSIAK, J.WANG, <i>Department of Industrial Engineering, The University of Iowa (USA)</i> Concurrent engineering: modelling the negotiation process	331
6. W.H.RUCKLE, <i>Department of Mathematical Sciences, Clemson University (USA)</i> Inspection in arms control	485
7. S.V.KIRPICH, <i>Institute of Engineering Cybernetics, Byelorussian Academy of Sciences (BEL)</i> Organized design principles of systems on the basis of conflict type models	261
8. D.BEČEJSKI-VUJAKLIJA, <i>Fakultet organizacionih nauka, Beograd(YU)</i> Conceptual model of DSS management game type creation	17

Design of decision support systems

1. G.E.KERSTEN, S.SZPAKOWICZ, <i>Carleton University/University of Ottawa (CDN)</i> Rules and environments: a hybrid representation for decision problems	237
--	-----

2. J.L.KULIKOWSKI, <i>Institute of Biocybernetics and Biomedical Engineering, Polish Academy of Sciences (PL)</i> Decision support systems based on relative logical inference	309
3. Z.WANG, S.FENG, <i>Institute of Systems Engineering, Huazhong University of Science and Technology (PRC)</i> Expert systems based decision support system	613
4. A.N.BORISOV, E.R.VILUMS, V.B.GORBATYUK, <i>Department of Automatic Control Systems, Technical University of Riga (LAT)</i> Software implementation of decision support system	35
5. A.KOLESNIKOV, A.GAIDUK, <i>Department of Control Systems, Taganrog Radioengineering Institute (RUS)</i> Optimization of computerized support systems	279
6. W.WALKER, RAND, <i>Santa Monica, CA (USA)</i> Organizational decision support systems: centralized support for a decentralized organization	603
7. E.MICHALEWSKI, <i>Systems Research Institute, Polish Academy of Sciences (PL)</i> Multilevel polyhierarchical model for organizational decision support implemented on IBM PC type package DIANA-9	395
8. A.M.ABBASOV, E.R.ALIEV, M.G.MAMEDOVA, <i>Institute of Cybernetics, Azerbaijan Academy of Sciences (AZER)</i> Decision-making based on distributed knowledge base with relational structure	5

FRIDAY, JUNE 26, 1992

Plenary session

W.GAUL, <i>Institut für Entscheidungstheorie und Unternehmensforschung, Universität Karlsruhe (D)</i> Computer-assisted decision support for market research and marketing problems	167
--	-----

Technical sessions

Multi-person decision making

1. J.N.CLIMACO, C.H.ANTUNES, <i>Faculty of Economics/Department of Electrical Engineering, University of Coimbra (P)</i> On the application of TRIMAP to problems with multiple decision makers	51
2. J.M.MARTEL, L.N.KISS, <i>Faculty of Business Administration, Laval University (CDN)</i> A support to consensus research in group decision	373
3. R.VETSCHERA, <i>Faculty of Economics and Statistics, University of Konstanz (D)</i> Generation of alternatives in group decision support	597

4. N.STANOULOV, *Institute of Computer Systems, Sofia (BG)*
Expert knowledge and computer-aided group decision making through DSS:
some pragmatic reflections 539
5. B.GAILLY, F.BOULIER, M.INSTALLÉ, *Center for Systems Engineering and Applied
Mechanics, University of Louvain/Laboratoire d'Etudes Comparées des Systemes
Agraires, INRA (F/B)*
Application of multicriteria and multiperson decision making to the planning of
the development of rural areas 141
6. G.R.SOTIROV, E.B.KRASTEVA, *Faculty of Automatics, Technical University of Sofia (BG)*
An approach to group decision making under uncertainty with application to project
selection 529

Linguistic information and fuzzy set applications

1. M.DELGADO, *Departamento de Ciencias de la Computacion e Inteligencia Artificial,
Universidad de Granada (E)*
Handling linguistic information in decision making processes 71
2. Z.ŚWITALSKI, *Department of Operations Research, Academy of Economics,
Poznań (PL)*
Fuzzy relations as a tool for non-fuzzy decision-making 567
3. T.WITKOWSKI, *Passenger Car Factory, Organization and Informatics Centre,
Warsaw (PL)*
The characteristic function and expert system constructions determining
probable success in the competition tenders 621
4. Q.WANG, Q.ZHUO, *Hebei Coal Mining and Civil Engineering College, Handan/Hefei
Polytechnical University (PRC)*
Mathematical model of generalized grey linear programming and its solution 609
5. T.NI, Q.WANG, *Hebei Coal Mining and Civil Engineering College, Handan (PRC)*
Uncertainty analysis and its mathematical basic system 415

Multi-criteria decision making

1. B.RUSTEM, *Department of Computing, Imperial College of Science, Technology
and Medicine (UK)*
A class of interactive methods for decision making under conflicting objectives 491
2. M.L.TENHUISEN, M.M.WIĘCEK, *Department of Mathematical Sciences,
Clemson University (USA)*
A new approach to solving multicriteria nonconvex optimization problems 573
3. W.OGRYCZAK, *Institute of Mathematics and Informatics, Warsaw University (PL)*
A goal programming model of the reference point method 433
4. R.NADEAU, L.KISS, B.URLI, *Sciences de l'Administration, Université Laval/Université
du Quebec a Rimouski (CDN)*
PROMISE: A DSS multiple objectives stochastic linear programming problems 403
5. I.KALISZEWSKI, *Systems Research Institute, Polish Academy of Sciences (PL)*
Parallel computations for decision support systems 231
6. M.M.KOSTREVA, M.M.WIĘCEK, *Department of Mathematical Sciences,
Clemson University (USA)*
Multicriteria decision making in fire egress analysis 285

Symbols, concepts, and knowledge

1. E.DIDAY, M.GETTLER-SUMMA, *INRIA, Rocquencourt/Université Paris IX-Dauphine (F)*
Factorial axis interpretation by symbolic objects 83
2. W.PEDRYCZ, *Electrical and Computer Engineering, University of Manitoba (CDN)*
Logical neural networks in problems of concept elicitation and validation 461
3. C.IWAŃSKI, *Systems Research Institute, Polish Academy of Sciences (PL)*
Knowledge acquisition supported by knowledge based system 219
4. K.TRANS, *Institute of Computer and Systems Sciences, Copenhagen Business School (DK)*
Multi-machine consensus by negotiation 591
5. E.SZCZERBICKI, *Technical University of Gdańsk (PL)*
Connectionist systems for development of autonomous agents 549

Discrete events and intelligent control

1. P.KOZAK, *Institute of Information Theory and Automation, Czecho-Slovak Academy of Sciences (CS)*
Knowledge of time-dependent system behaviour: representation and inference methods 291
2. J.PIK, *Institute of Information Theory and Automation, Czecho-Slovak Academy of Sciences (CS)*
Natural discrete-event process forecasting: a decision support system 467
3. M.SYED-HOSSEINI, *Department of Industrial Engineering, Iran University of Sciences & Technology (IR)*
A generalized model for series production lines 509
4. X.GANDIBLEUX, C.ROSENTHAL-SABROUX, G.LIBERT, *Université de Paris-Dauphine (F)*
Multicriteria Approach for Intelligent Decision Support in Supervisory Control 159
5. A.GUEZ, Z.AHMAD, *Department Of Electrical And Computer Engineering, Drexel University, Philadelphia (USA)*
Multiple Criteria Decision Making In Automatic Nonlinear Control 197
