

Lufttemperatur. Anproben 1911-12

Table with columns 1-24 and rows 1-31. Each cell contains numerical data representing temperature measurements at different locations and times.

Repositie muis myzomantassif

Table with columns numbered 1 to 24 and rows numbered 5 to 19. Each cell contains numerical data, often with multiple values stacked vertically. The data appears to be weather-related measurements.

Lufttemperatur. Bergstadt 1942.
