The infraciliature of the species *Charonina ventriculi* (Jameson) is described and its morphogenesis is generally characterized. The view is put forward that this species cannot be included into the genus *Blepharocorys* Bundle.

**Hsiung. IV. *Pararaabena dentata* gen. n., sp. n. from the
intestine of Indian elephant. Acta Protozoologica V (1968),
219—224.**

A new species and a new genus of the family *Blepharocorythidae* of the intestine of the Indian elephant has been described. The relationship between the genera *Raabena*, *Pararaabena* and *Blepharocorys* is discussed.
